Diving and Snorkeling

Cayman Brac is a divers paradise. Whether novice or master all levels of diving/tours/group activities are available. Experience the Brac's shallow or deep wall dives. Take a boat ride to Little Cayman-our smallest island where the fish are abundant in unspoiled landscape. Options available on the Brac from individual to group diving.

Our snorkeling is spectacular. Easy access into the water via a boat ramp. Once in the water you will see loads of coral heads teeming with brilliantly colored tropical fish.
